Dear Friends of RV Habitat,

Thank you for your generous support of our Dutch Lane development in Bridgewater Township. Your contribution has not only helped us build houses, but will change the future for 2 more hard working families. Now these happy families own new, well-constructed, affordable homes that meet their needs. Through our Partner Family program, these new homeowners have helped build their homes and have also completed financial workshops and good neighbor seminars that will prepare them to be successful homeowners and assets to the community.

The House Dedication ceremony on June 12 was a joyous event. In addition to speeches from township and county officials, we heard from volunteers and donors about the positive impact of this Habitat project on their lives and our community. Our hearts were warmed by expressions of gratitude offered by the new homeowners for the support and care they received as they worked together with volunteers and staff to make their dream of home ownership a reality. On behalf of the Sierra family: Marisol, Christopher, Aida, and Eddie, and the Buniowski family: Witold, Justyna, Gabriela, Andrezej, Kacper, Antony, and brand-new baby Albert, we thank to you.

These homes are the first two of nine we are building on Dutch Lane in Bridgewater. They are the thirty-sixth and thirty-seventh houses Raritan Valley Habitat has built since we began in 1992. In that time we have had a direct impact on the lives of 146 people, 96 of them children, by providing simple, decent affordable houses. With the support of volunteers and donors like you, 37 families have a permanent home to call their own.

The founders of Habitat for Humanity had a vision of a world without poverty housing. We are grateful for your partnership which brings this vision ever closer to realization. We look forward to continuing this work together to bring More Homes and More Hope to our neighbors in need in Somerset and Hunterdon counties.

Grace be with you,
