Dear friends -

On behalf of the Friendly Water for the World Board, I want to thank you for your continuing support, and for your contribution of March 3<sup>rd</sup>, 2013 of \$100.

The Mission of Friendly Water for the World is to expand access to low-cost clean water technologies and information about health and sanitation to people in need of them. We partner with communities around the world to build and distribute Biosand Water Filters, and build awareness about safe drinking water, basic sanitation, and hygiene. We promote sustainability by helping communities help themselves. We provide opportunities for people of all ages, races, faiths, cultures, and traditions in North America and the developing world to build relationships and learn from each other. And we do this by working with other friends around the globe. We will use your contribution to support the expansion of our programs in Ethiopia, Burundi, Uganda, and Kenya.
